Subject: 738 Upper Mountain Road Property Owner Insurance Certificate

Thanks everyone. I provided the information for the certificate to our contactors. Once received, I forward it on. I wrote a recap below. Please let me know if you have any questions or concerns

Proposed Plans to date:

- We have draft **removal action** access forms presented to both Talarico property representatives and Niagara County. We have an existing signed **assessment access form** for the Talarico property, so we are still OK with the original document for our proposed activities the week of October 21st.
- Our contractor will ensure the utility mark out is conducted prior to our site visit. The mark out is only good for 10 days and will perform again prior to removal action. This is solely being performed for visual planning purposes.
- Revised/update insurance certificate requested from EPA contractor
- October 21st at 9:00 AM, property representatives and EPA meeting
 - Location
 - Lewiston Town Hall
Main Conference Room
1375 Ridge Road
Lewiston, New York 14092
 - EPA will have a presentation and bring a projector.
- The week of October 21st our contractor will identify/mark the property boundaries between the three parcels. This will most likely occur October 21st or October 22nd.
- We would like to walk into the wooded areas of the Talarico property to obtain an idea of where we will clear a pathway from the driveway to the rear of the Talarico property for staging. This is future work and not for October 2019. This clearing would be done on Talarico property and not impede on parcels 115.08-1-26 and 115.08-1-28. If feasible, I would like Mr. Talarico to join us on the walk so we can discuss the proposed plans as we view the property in person. We will need to dress appropriately for the walk in the woods. (Long pants, closed toe shoes, insect repellent).
- In addition, we will need to take a sample from the area of concern on the Talarico “driveway” and a background sample (soil sample from Talarico property that doesn’t exhibit elevated gamma readings) for disposal facility criteria. The samples we obtained in 2016 were for radiological analysis only and not for non-radiological hazards that we need to analyze for prior to disposal. This will be performed using a hand auger and will most likely occur October 21st or October 22nd.

That's fine. Address should be 969 Little Vista Dr, Lewiston, NY 14092

Thanks Eric. The company name for the certificate should be "Talarico Bros. Building Corp." I think one certificate is fine, but defer to Sam on that and the address.

Good Morning Tom and Sam:

In regard to the revised insurance certificate, can the two entities (Sam Talarico & Talarico Brothers, Inc.) go on one insurance certificate or do you need them to be separate? Also, to confirm, the address provided for the 2016 certificate (8675 Lozina Drive, Niagara Falls, NY 14304) is the same for both?

Thanks.

Thanks Tom. I will leave the revision of the access document question for Margo. However, we did provide separate documents in the past that (certificate of liability insurance). At least with our contractor, Weston. Please see the 2016

Weston document attached and let me know if a similar document with that wording will be sufficient. We have some time to work through this until the removal action mobilization. We will not be performing any of those activities the week of October 21st.

Hi Eric and Margo,

I have copied Sam on this note.

I assume, based on prior communications, that we have limited ability to negotiate revisions to this access document. Given that – and your pending mobilization and the fact that your work this time may involve remediation (and not just screening/sampling) – I'm wondering if it would be possible to make just one change: can we please add language to the effect that EPA's contractors will name Talarico Bros. Building Corp. and Sam Talarico as additional insureds on their insurance and that insurance certificates will be provided prior to mobilization?

Thank you for your consideration.

Tom

Good Afternoon Tom:

Attached is the draft property access document. Please let Margo and I know if there are any questions from your group.

Thanks
